MUIN

Mi'gmaq United Investment Network (MUIN) was created by the Mi'gmaq First Nations in New Brunswick as a profit-sharing entity to explore economic opportunities, investments, and partnerships that can produce results for the Mi'gmaq communities in New Brunswick and their members.

Creating Opportunities and Partnerships

Mi'gmaq communities are willing to collaborate with companies and individuals who share the desire to create prosperity for our communities and within the province of New Brunswick. Although MUIN is a relatively new company, it has already established partnerships with companies such as Natural Forces and Plaex. We are open to meetings with any investors who appreciate Mi'gmaq values and recognize the economic and social benefits of a partnership with the Mi'gmaq.

Shared Prosperity:

MUIN distributes profits from projects across participating Mi'gmaq communities, fostering growth.

Cultural Investment:

Projects respect Mi'gmaq traditions, preserving and celebrating cultural identity.

Impactful Initiatives:

Investments create jobs, support education, and empower individuals.
